Development Activity:

Bishops Landing:

Beazer Homes is continuing work into phase 1 All the lots have been permitted and construction on them is underway. Final top coat of blacktop has not been scheduled yet nor the final walk. I hope they wait till spring now.

Work continues in Phase 2 with grubbing, the removal of trees, top soil stripping and digging the ponds out. Utilities are being installed. The first townhouse unit is well under construction in phase 2 and a 2nd has started.

MBTS:

Summerwind Village (which is near the amenity center) The infrastructure is all in and the roads all have been paved with the base coat. The digging of the pond is continuing. Home construction is well underway. A walk with Miller and Smith identified curbing that needs repaired prior to final blacktopping.

Lakeside Village; This site is complete with site work except for top coating of roads and final landscaping. Housing construction is well underway. Final as-builds have been turned into Town Hall.
