The Town has certain regulations, which you must comply with in order to obtain a building permit and work on a dwelling in the Town. Your signature on this agreement indicates that you understand and will obey the following regulations:

Inspections required will be determined during the permit review, however, the inspector has the authority to enter onto any construction site to visualize and inspect the construction practices being performed at all times during the construction period. **To avoid penalties, schedule all required inspections that are checked off on the approved building permit application. Certificates of Occupancy/Completion may not be issued if inspections are not scheduled.**
