SCR00026-ATLANTIC AVENUE

Dear Ms. Botchie:

The Department of Transportation has reviewed the Site Plan, dated June 29, 2021 (last revised January 12, 2021), for the above referenced site, and has no objection to its recordation as shown on the enclosed drawings. This “No Objection to Recordation” approval shall be valid for a period of **five (5) years from the original approval date of June 18, 2020**. If the Site Plan is not recorded prior to the expiration of the ”No Objection to Recordation”, then the plan must be updated to meet current requirements and resubmitted for review and approval.

This letter supersedes the Letter of No Objection dated June 18, 2020.

This letter does not authorize the commencement of entrance construction. Entrance plans shall be developed in accordance with DelDOT's Development Coordination Manual and submitted to the Development Coordination Section for review and approval.

This “No Objection to Recordation” letter is not a DelDOT endorsement of the project discussed above. Rather, it is a recitation of the transportation improvements, which the applicant may be required to make as a pre-condition to recordation steps and deed restrictions as required by the respective county/municipality in which the project is located. If transportation investments are necessary, they are based on an analysis of the proposed project, its location, and its estimated impact on traffic movements and densities. The required improvements conform to DelDOT’s published rules, regulations and standards. Ultimate responsibility for the approval of
any project rests with the local government in which the land use decisions are authorized. There may be other reasons (environmental, historic, neighborhood composition, etc.) which compel that jurisdiction to modify or reject this proposed plan even though DelDOT has established that these enumerated transportation improvements are acceptable.

If I can be of any further assistance, please call me at (302) 760-2266.

Very truly yours,

R. Stephen McCabe
