DRAINAGE PROGRAM

July 27, 2021

Chad Warren
Davis, Bowen & Friedel, Inc.
1 Park Avenue
Milford, DE 19963

RE: Parcel # 134-15.00-93.01, Tupelo Sands

The Delaware Department of Natural Resources and Environmental Control (DNREC), Drainage Program has reviewed the plans submitted by Davis, Bowen, & Friedel, Inc. for the above noted property within the Beaver Dam Canal Tax Ditch Watershed.

My office has **no objection** to the works of improvement to this parcel with the following provisions:

- Maintenance of the stormwater management facilities and associated features located within or along the tax ditch channel including the rock outlet protection are the responsibility of the landowner, not the tax ditch organization.
- It is highly recommended that the landowner evaluates and cleans out the tax ditch channel to design grade, if needed, prior to construction of this project. The DNREC Drainage Program can provide technical assistance on this matter.
- Tax ditch right-of-ways must remain traversable for tax ditch maintenance personnel, large equipment and/or disposal of spoil and debris.
- The DNREC Drainage Program should be contacted for design specifications if any repairs or additions are needed to any outlets into the tax ditch.
- When scheduling the pre-construction meeting for this project, please contact the DNREC Drainage Program.

If you are a consultant working on behalf of a landowner, it is your responsibility to pass on this information to the landowner(s).

If you have any questions or concerns, please contact the Drainage Program at (302) 855-1930.

Sincerely,

Melissa Hubert/blh
