

TOWN MANAGER'S REPORT October 2023

Town Projects Status

- The acoustic sound panels have been installed at the Millville Community Center. The panels are beautifully done and show Millville's rich history with homes, farms, schools, churches, fire company, and businesses. I am very grateful for the help of Andrew Lyons, Jr. who worked with me for hours at a time choosing just the right photos for this project. He also took the for installation of the panels which included my partner Johnny Melson, staff member James Simpson, and Councilmember Wisgirda while Mayor Belinko and I supervised.
- Security cameras have now been installed on the Town Hall and around the perimeter of the property.
- I have been receiving comments on the master concept plan for Evans Park and will be scheduling another meeting after the new year.

Attached are the following reports:

1. Code & Building Department
2. Evans Park Report
3. DSP Crime Report
4. MVFC Report

Respectfully submitted,
Deborah Botchie
Town Manager
