

Town Manager's Monthly Report

To: Honorable Mayor and Council
From: Eileen Scerra, Town Manager
Subject: June 2026

TOWN MANAGER'S UPDATE

- ❖ Received pre-approval to move forward with application for grant to add additional park amenities including concrete walkway and pad for corn hole and game tables. The application requires a 50% match with a project total of approximately \$100,000.
- ❖ Post Office: The scope of the Millville Post Office project has changed from a building repair to a complete rebuild due to the extent of the deterioration. Based on information received from our legislative delegation, construction is now projected to begin in June 2027. Senator Hocker, Representative Gray, and the rest of our delegation continue to advocate pushing for improved communication, interim alternatives, and an expedited timeline. Unfortunately, the Town has received little direct communication from USPS and has only been able to contact one USPS employee regarding routine grounds maintenance. We learned of the rebuild timeline through Senator Hocker rather than USPS. In the meantime, residents who only need postage stamps can purchase them at Giant, which may help avoid a trip to another post office location.
- ❖ Senate Bill 23 was approved by the Delaware Senate with a vote of 14 in favor and 6 opposed. The bill will now continue through the legislative process for further consideration. Please make your voice heard.
- ❖ Brochure for Millville visitors was completed. *Please see attached*
 - [Town of Millville - Visitor Brochure \(RENTALS\) | Town of Millville](#)
- ❖ Town Charter passed.
- ❖ Scam alert: Residents and stakeholders are reminded that official Town communications are issued only through authorized Town personnel, official Town email addresses, the Town website, and the Town's established social media channels. Please be cautious of fraudulent emails, messages, or social media accounts claiming to represent the Town, and verify any questionable communications through official Town sources.
